

Letter Of Recommendation

I am pleased to write this recommendation letter in support of Mr. Rishi Kumar. I have known him since (mention year) in my position at ABC University, where he was under tutelage for the subjects of Object Oriented Programming - I and Analysis and Design of Algorithms. Basis my observation of his performance, I can attest that he is a focused student with sound academic aptitude and leadership potential.

He is a creative person, someone ready to explore new pathways and novel methodologies and suggests ideas aiding in executing the tasks efficiently. His approach to work is the mirror reflection of an innovative mindset that he possesses and the solutions he devises are original yet pragmatic. He has superlative analytical abilities, strives to study a problem in detail and can be vital in achieving desired end results through his precise analysis of the requirements. As a team member, he always works for the benefit of team and is driven towards contributing for team cause. Acting as a true team player he is flexible to accommodate changes to achieve the bigger vision associated with the assigned task and with his selfless performance inspires others to prioritize team goals.

Rishi has interacted with me during sessions wherein I have consulted students on seminars and events he can attend to develop relevant skills or make informed career choices. In these sessions, he came across as an ambitious student and was always enthusiastic about developing proficiency at international level. Furthermore, with the rich blend of creativity, temperament and discipline he has displayed throughout the course, I believe he is poised to accomplish his career goals and I expect him to secure an enriching career in future. Augmenting his ambitious thought process, he is conscious about his involvement in extra-curricular activities and is fervent in his pursuit of non-academic interests such as photography, sports and travelling. He has also participated in a sea swimming competition and made college proud on many occasions by winning medals in the state level swimming competitions.

I think this course is perfectly aligned with his mature mindset and would assist him in acquiring in-depth knowledge on advanced concepts related to the area of his interest. It would further enhance his practical knowledge by exposing him to modern techniques and best practices followed across renowned organizations. I therefore, recommend his admission into the course.

Dr. Dev Khanna
Head of the Department
ABC University
