

Statement of Purpose

To,
The Consular Section
Consulate General of Italy

Respected sir/ma'am,

My name is Ajit Yadav, DOB: 20th September 1992, and my passport number is <add>. I have been accepted to study Master's Degree in International Economics and Commerce at the Università Politecnica Delle.

Background: I completed my schooling at St. Teresa's Academy. Having a great inclination in business and commerce, I chose to pursue a Bachelor of Business Administration as a part of my undergraduate studies. Having grasped an intricate understanding of the role of commerce, accounts, and administration in business, I graduated in 2014. Since then, I have never looked back as I worked thoroughly in the field of business and learned about the nitty gritty of businesses. Commerce and economics have played a significant role in uplifting our business society across international borders. I am greatly influenced by how great economists have helped people with extraordinary visions build great empires. Also, with the advancement of modernization and means of transportation and knowledge transfer, businesses are creating a new history. Having intense industry exposure working as a Business Coordinator and Business Executive, I have learned to differentiate between the needs and wants of any particular business and its associated stakeholders. Of all my learnings, I pay huge respect to my inclination in Commerce and Economics, leading me to understand the business industry from a different perspective. To further accentuate my learnings, I wish to expand my knowledge area and learn new skills to meet the upcoming challenges in the upcoming business sector. Therefore, very thoughtfully, I have chosen to pursue a Master of International Economics and Commerce at the Università Politecnica Delle. I researched thoroughly about the existing curriculum and became hooked on its exceptional offering in the domains of International Business, International Communication, Supply Chain, and Intercultural Relations.

To become a master of my craft, it is significant that I get an in-depth understanding of these subjects. However, I have studied these earlier but at a graduate level. Studying these subjects at a master's level will sanctify my academic and practical learnings. Besides this, as I speculated about the university, my faith in its authenticity strengthened. This university is highly acclaimed and offers students with the state-of-the-art infrastructure. Likewise, I have been fascinated by the charm of Italy and the affordable cost of education and living. People in Italy are warm and welcoming, and I also know English very well, which will help me communicate efficiently with people and make new connections. I am sure my time in Italy will be full of practical learning as the same is not available in my home country. It will also add international exposure to my profile, alleviating it amongst the reputable Indian employers back home.

Future goal: After completing my study program, I aim to return home to reserve better positions, as I have already listed a few great companies under my potential employers. These include TATA, Reliance, Nestle, Unilever, KPMG, etc. My ultimate goal is to utilize my degree to reach heights in my profession and finally become an entrepreneur. My further education will help me in achieving my career plans swiftly.

Financial arrangements: I have been working for a long time and have enough funds to fulfil my education and living expenses in Italy. I have already saved 19,000 euros, which gives me the confidence to support myself while my parents are more than willing to help me in case of any additional expenses I might incur during my stay.

Travel and accommodation: My course will begin on <add>. Not to miss even a single class, I have already booked flight tickets for <date>. My accommodation has been planned at <address>, and I will be carrying my health insurance of <Add figure> Euros along with me.

With this, I assure you that I will pose no financial liability either to the country or its people and request you allow me a valid study permit. I shall be thankful to you.

Thank you.
Yours sincerely,
Ajit Yadav
