- **Give details of the applicant's current circumstances. This includes ties to family, community, employment, and economic circumstances.**

I come from an economically strong business-class family. My parents run a successful IT company, YL Ltd., wherein I am also on the board of director's panel. Since childhood, I have been brought up in a competitive business environment which shaped my personality and gave me a vision to become an effective entrepreneur and leader to sustain our family business in the long run. Therefore, soon after I completed my PGDM, I joined my family business and grasped the nitty-gritty of managing an IT company under my mother's elite guidance. It further gave me a reflection on my shortcomings and encouraged me to pursue the chosen course. However, I am willing to take this course in Australia because education in my home country is theoretical, and international exposure is missing. By studying in Australia, I will gain international recognition and I will be valued when I begin expanding my business internationally.

- **Explain why the applicant wishes to study this course in Australia with this particular education provider. This must also explain their understanding of the requirements of the intended course and studying and living in Australia.**

Australia is one of the best study destinations highly acclaimed globally. I also preferred studying either in the UK or the USA, but the former is financially challenging, and the latter is unfavorable for me due to extreme climatic conditions. I come from India, and I believe Australia is a viable option for us considering the above two factors, which are my priority. Furthermore, the Australian education system is equally renowned and offers students numerous scholarships, while its strategic location in the APAC region makes it attractive for international students from India. Likewise, I have chosen to study at the St. Mary's Institute of Business Management because it falls under the top 50 institutions globally. In the chosen study program, I will also have the opportunity to undergo a capstone internship, which will provide me real-time opportunity to practice theory and become well-prepared before returning to my home country.

- **Explain how completing the course will be of benefit to the applicant.**

I have ambitious plans to cater to my family business and make it reach heights. Since I want to grow it in a global dimension, I consider the modules in Marketing Management, Human Resource Management, Finance Analytics, Customer Behaviour, Marketing Research, B2B Marketing, Public Relations, and Branding of utmost value. This will teach me to compete in the international business environment while sustaining domestically. Learnings from this course will help me in successfully executing my plans for starting global operations for our IT business fabricating the richness of these modules to our learned experiences over time. Hence, I find this course extremely valuable in nurturing my personality and making me even more independent, adaptable and resilient.

- **Give details of any other relevant information the applicant would like to include.**

Besides me my family includes my father, mother, and brother My parents run YL Ltd. and my brother is pursuing her studies in Fashion Design. Our company had a turnover of 70 Cr in the last financial year and we have four residential properties in our name while my parents filed an ITR of 12 crores INR. It makes my parents confident that they will willingly sponsor my travel, education, and living costs. Furthermore, I am aware of all the visa conditions and am determined to follow Australian Immigration Rules throughout my stay in the country. Due to having a strong desire to rejoin my family business, I have no hidden intent to overstay in Australia. Rather, I will return home within the stipulated period.
