- **Give details of the applicant's current circumstances. This includes ties to family, community, employment, and economic circumstances.**

I belong to a well-established business family which includes my father, mother, and a younger sibling. My father owns the business with a turnover of INR 30 crores, my mother is a homemaker and my brother is studying. I graduated in commerce and post this, to further my skillset in finance, I pursued an MBA in Human Resource Management. During my MBA, I was introduced to the nitty-gritty of the financial business. Moreover, my inclusion in certain projects and training allowed me to develop particular skills in this domain. With my fine skills in understanding finance and business due to belonging to a business family, I received an opportunity to work as an assistant manager at Supreme Pvt. Ltd. where I worked from January to December 2024. However, I realized that I need to sharpen my intellect in financial procedures through practical training which I couldn't get during my MBA in India.

- **Explain why the applicant wishes to study this course in Australia with this particular education provider. This must also explain their understanding of the requirements of the intended course and studying and living in Australia.**

One of the key factors that influenced my choice is Australia's strong emphasis on practical education, in contrast to the more theoretical approach in India. Studying in Australia will enhance my educational profile and make me a more attractive candidate in my home country. I did not receive practical exposure even during the MBA program in my country which makes me eagerly pursue further study dreams in Australia where education is strongly inclined to practical learning. The multicultural tapestry of Australia offers not just education but an immersive experience, fostering inclusivity for international students. The stable economy, high living standards, and globally recognized universities collectively create an environment where academic and personal growth are not just encouraged but celebrated. Australia's commitment to innovation and its multicultural environment were particularly appealing. I believe that this choice will set me apart in the job market, both locally and internationally.

- **Explain how completing the course will be of benefit to the applicant.**

My country welcomes individuals having international qualifications due to the ability to apply a practical approach compared to indigenous candidates. Therefore, the chosen study destination will prepare me to shine in my career. Also, as per the survey, India is quickly reaching its goal of becoming the world's strong economic power which will be a plus for me to put my talent back home. Hence, my ultimate goal is to return home and secure positions within prestigious multinational corporations like KPMG, SONY, IBM, Aditya Birla Group, and Hindustan Unilever, as a Human Resources manager. The knowledge and skills acquired through this course will significantly boost my performance within the competitive business and corporate industry. This journey is vital to achieving my career aspirations and making a meaningful impact in the corporate world.

- **Give details of any other relevant information the applicant would like to include.**

As I mentioned earlier my family is financially wealthy and my father's business has a value of 30 crores in Indian rupees which is a huge sum. Hence, my father and paternal grandmother have sponsored my education and living in Australia. My father carries 60,00,000 and my grandmother has 70,00,000 in their separate savings account details of which are shared herewith. I have already made a payment of AUD 37,230 for the first-year tuition fees. I am delighted to be a part of such a supportive family and pay gratitude to my elders for standing by my side through thick and thin. I feel a lot obliged towards them and make sure I return to my home country so I can reciprocate the gesture by standing tall with my family members. I do not have any hidden intent to overstay in Australia beyond my study period.
